Nexus Financial Services

Lagos|Nigeria

Nexus Financial Services is a growing financial company which has experienced significant expansion.

Nexus Financial Services
Lagos|Nigeria

However the company is lacking the appropriate GRC structure to govern company activities, mitigate risks and ensure compliance.

Nexus Financial Services

Lagos|Nigeria

Problems Identified

- No clear process for approving or enforcing company policies
- No standard way of assessing risk before making business decisions
- No one responsible for tracking regulatory requirements and deadlines

Nexus Financial Services

Governance,

Risk,

and Compliance

GOVERNANCE

This is the understanding of all the different parts of the organisation with one unique goal

RISK

This refers to the possibility that an event or situation could negatively affect an organisation's ability to achieve its objectives

COMPLIANCE

This is the process of ensuring that an organisation follows applicable laws, regulations, industry standards, contractual obligations, and internal policies and procedures.

This team will identify the company's clear goals and objectives, set the rules and policies to guide the day-to-day running of teh company.

They will be responsible for identifying possible risks the company will be exposed to and bring this to the attention of the board who will then decide on the company's risk appetite.

The compliance team will ensure the organisation follows the applicable

- policies,
- regulations and
- industry standards

while working with audit for checks and balances.

Implementing this procedure will help the company

- avoid taking expensive risks,
-
- risk mitigation,
-
- build reputation with stakeholders

Thank you
